Member Cost \$119.00

Associate Cost \$113.45

### About Ambrotose® Complex:

- Includes saccharides that support optimal cell-to-cell communication.\*
- Includes glyconutrients, a blend of specific plant saccharides that support the immune system.\*
- May help to create glycoforms, the structures on cell surfaces used to communicate with other cells.\*

## Immune Support Formula

Ambrotose® complex is Mannatech's original glyconutritional, formulated to support effective cell-to-cell communication. Thousands around the world have experienced the benefits of Ambrotose® complex, which supplies the raw materials your body can use to create glycoforms, the structures on cell surfaces used to communicate vital messages to other cells.\*

This nutritional supplement provides sources of raw materials for the body to use for optimal cellular communication. Its blend of specific plant saccharides provides support for the immune system.\*

**What can effective communication between cells mean to your health? Proper gland and organ function; proper system function, including your immune and endocrine systems; and ultimately optimal health.\***

No combination of vitamins, minerals, amino acids or herbals can take the place of the saccharides in Ambrotose® complex. Ambrotose® complex technology is now patented in 29 nations, including the United States.

# Ambrotose® Complex
