Health

Mannatech's Optimal Health Solutions provide the best foundation for your daily nutritional requirements.

about Advanced Ambrotose™ immune support formula:

Advanced Ambrotose™ bulk (powder) and capsules include glyconutrients, a blend of plant polysaccharides formulated to support cellular communication and wellness. Good communication between cells is necessary to support:

- ◇ optimal health.
- ◇ immune system function.
- ◇ proper organ function.
- ◇ cognitive function.
- ◇ proper digestive system function.

This breakthrough formula combines arabinogalactan and saccharides from aloe with fucoidan-rich *Undaria pinnatifida*, a brown seaweed harvested from the clear waters off the coast of Tasmania, for more fucoidans per serving than any other Mannatech product. Advanced Ambrotose™ bulk (powder) and capsules deliver a better balance of saccharides at a better value per serving than ever before.

Advanced Ambrotose™ products are formulated to support cellular communication and wellness. The messages cells exchange are important for your natural defense (immune) and digestive systems, as well as affecting proper cognitive and organ function.

Advanced Ambrotose™ bulk (powder) and capsules are a significant step forward in Mannatech's internationally recognised family of proprietary Ambrotose™ products.

Ambrotose™ products are the core of the Mannatech's Intelligent Supplementation™ philosophy.

Advanced Ambrotose™	Product Number	Member Cost	Associate Cost
120 Capsules	37701	R400	R380
Bulk, Net Wt. 2.65 oz. (75 g)	37501	R685	R650
Bulk, Net Wt. 5.3 oz. (150 g)	37601	R1245	R1180

Bulk
